

Introducing Post-it® Super Sticky Recycled Notes

Dear [Name],

Over the last 40 years the Post-it® range has diversified into many new options, with a huge choice now available in all sorts of colours, shapes and sizes.

Two of our biggest ranges to grow in recent years have been Post-it® Super Sticky Notes and Post-it® Recycled Notes – so naturally we decided to combine them to create our new Post-it® Super Sticky Recycled Notes.

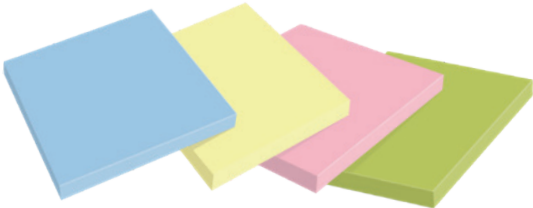

[CLICK HERE](#)

These notes provide twice the sticking power* of our classic Post-it® Notes, but are now made from 100% recycled paper and a 60% plant-based adhesive that’s comes from a non-food plant that replenishes annually.

Our unique adhesive is designed to stick to almost any surface, including brick, wood and other non-smooth surfaces, making them extremely reliable and highly versatile – allowing you to stick notes whenever and wherever you need them.

Post-it® Super Sticky Recycled Notes are recyclable and the paper is sourced from certified, renewable, and responsibly managed forests. All Post-it® Notes are PEFC Certified and recyclable through the normal paper stream.

So, why accept compromises when versatility and reliability are now combined with notes that are 100% recycled? Post-it® Super Sticky Recycled Notes offer the best of both worlds, combining high adhesion with our most sustainable choice yet.
