The Cheeky Panda are leading a bamboo revolution! They were the pioneers in creating high quality personal care, hygiene and catering products using sustainable bamboo - the world's fastest growing plant. The range includes toilet rolls, hand towels, antibacterial wipes, period pads and many more. Not only does Cheeky Panda's bamboo make their products super soft and strong, but choosing bamboo gives you a sustainable alternative to tree-based products in a bid to combat deforestation where 1 million trees cut down per day for toilet paper alone.
